

Data Privacy Declaration DenkSinn GmbH

1. Definitions

The data privacy declaration of the DenkSinn GmbH is based on the terms used by the European legislator for the adoption of the General Data Protection Regulation (GDPR). Our data privacy declaration should be legible and understandable for the general public, as well as our customers and business partners. To ensure this, we would like to first explain the terminology used.

In this data privacy declaration, we use, inter alia, the following terms:

a) Personal Data

Personal data means any information relating to an identified or identifiable natural person (“data subject”). An identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person.

b) Data Subject

Data subject is any identified or identifiable natural person, whose personal data is processed by the controller responsible for the processing.

c) Processing

Processing is any operation or set of operations which is performed on personal data or on sets of personal data, whether or not by automated means, such as collection, recording, organization, structuring, storage, adaptation or alteration, retrieval, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, restriction, erasure or destruction.

d) Processing Restrictions

Restriction of processing is the marking of stored personal data with the aim of limiting their processing in the future.

e) Profiling

Profiling means any form of automated processing of personal data consisting of the use of personal data to evaluate certain personal aspects relating to a natural person, in particular to analyze or predict aspects concerning that natural person's performance at work, economic situation, health, personal preferences, interests, reliability, behavior, location or movements.

f) Pseudonymization

Pseudonymization is the processing of personal data in such a manner that the personal data can no longer be attributed to a specific data subject without the use of additional information, provided that such additional information is kept separately and is subject to technical and organizational measures to ensure that the personal data are not attributed to an identified or identifiable natural person.

g) Controller or responsible controller for data processing

Controller or controller responsible for the processing is the natural or legal person, public authority, agency or other body which, alone or jointly with others, determines the purposes and means of the processing of personal data; where the purposes and means of such processing are determined by Union or Member State law, the controller or the specific criteria for its nomination may be provided for by Union or Member State law.

h) Processor

Processor is a natural or legal person, public authority, agency or other body which processes personal data on behalf of the controller.

i) Recipient

Recipient is a natural or legal person, public authority, agency or another body, to which the personal data are disclosed, whether a third party or not. However, public authorities which may receive personal data in the framework of a particular inquiry in accordance with Union or Member State law shall not be regarded as recipients; the processing of those data by those public authorities shall be in compliance with the applicable data protection rules according to the purposes of the processing.

j) Third Party

Third party is a natural or legal person, public authority, agency or body other than the data subject, controller, processor and persons who, under the direct authority of the controller or processor, are authorized to process personal data.

k) Consent

Consent of the data subject is any freely given, specific, informed and unambiguous indication of the data subject's wishes by which he or she, by a statement or by a clear affirmative action, signifies agreement to the processing of personal data relating to him or her.

2. Name and address of the controller

Controller for the purposes of the General Data Protection Regulation (GDPR/DSGVO), other data protection laws applicable in Member states of the European Union and other provisions related to data protection is:

DenkSinn GmbH
Lueder-von-Bentheim-Str. 9
28209 Bremen
Germany

Phone.: 0421 5772 6595
E-Mail: info@denksinn.de
Website: www.denksinn.com
HRB 35131 HB

3. Cookies

The Internet pages DenkSinn GmbH use cookies. Cookies are text files that are stored in a computer system via an Internet browser.

Many Internet sites and servers use cookies. Many cookies contain a so-called cookie ID. A cookie ID is a unique identifier of the cookie. It consists of a character string through which Internet pages and servers can be assigned to the specific Internet browser in which the cookie was stored. This allows visited Internet sites and servers to differentiate the individual browser of the data subject from other Internet browsers that contain other cookies. A specific internet browser can be recognized and identified using the unique cookie ID.

Through the use of cookies, the DenkSinn GmbH can provide the users of this website with more user-friendly services that would not be possible without the cookie setting.

By means of a cookie, the information and offers on our website can be optimized with the user in mind. Cookies allow us, as previously mentioned, to recognize our website users. The purpose of this recognition is to make it easier for users to utilize our website. The website user that uses cookies, e.g. does not have to enter access data each time the website is accessed, because this is taken over by the website, and the cookie is thus stored on the user's computer system. Another example is the cookie of a shopping cart in an online shop. The online store remembers the articles that a customer has placed in the virtual shopping cart via a cookie.

The data subject may, at any time, prevent the setting of cookies through our website by means of a corresponding setting of the Internet browser used, and may thus permanently deny the setting of cookies. Furthermore, already set cookies may be deleted at any time via an Internet browser or other software programs. This is possible in all popular Internet browsers. If the data subject deactivates the setting of cookies in the Internet browser used, not all functions of our website may be entirely usable.

4. General data and information collection

The website of DenkSinn GmbH collects a series of general data and information when a data subject or automated system calls up the website. This general data and information are stored in the server log files. Collected may be (1) the browser types and versions used, (2) the operating system used by the accessing system, (3) the website from which an accessing system reaches our website (so-called referrers), (4) the sub-websites, (5) the date and time of access

to the Internet site, (6) an Internet protocol address (IP address), (7) the Internet service provider of the accessing system, and (8) any other similar data and information that may be used in the event of attacks on our information technology systems.

When using these general data and information, DenkSinn GmbH does not draw any conclusions about the data subject. Rather, this information is needed to (1) deliver the content of our website correctly, (2) optimize the content of our website as well as its advertisement, (3) ensure the long-term viability of our information technology systems and website technology, and (4) provide law enforcement authorities with the information necessary for criminal prosecution in case of a cyber-attack. Therefore, the DenkSinn GmbH analyzes anonymously collected data and information statistically, with the aim of increasing the data protection and data security of our enterprise, and to ensure an optimal level of protection for the personal data we process. The anonymous data of the server log files are stored separately from all personal data provided by a data subject.

5. Comments function in the blog on the website

This website offers users the possibility to leave individual comments on individual blog contributions on a blog, which is on the website of the controller. A blog is a web-based, publicly-accessible portal, through which one or more people called bloggers or web-bloggers may post articles or write down thoughts in so-called blogposts. Blogposts may usually be commented by third parties.

If a data subject leaves a comment on the blog published on this website, the comments made by the data subject are also stored and published, as well as information on the date of the commentary and on the user's (pseudonym) chosen by the data subject. In addition, the IP address assigned by the Internet service provider (ISP) to the data subject is also logged. This storage of the IP address takes place for security reasons, and in case the data subject violates the rights of third parties, or posts illegal content through a given comment. The storage of these personal data is, therefore, in the own interest of the data controller, so that he can exculpate in the event of an infringement. This collected personal data will not be passed to third parties, unless such a transfer is required by law or serves the aim of the defense of the data controller.

6. Subscription to comments in the blog on the website

The comments made in the blog of this website may be subscribed to by third parties. In particular, there is the possibility that a commenter subscribes to the comments following his comments on a particular blog post.

If a data subject decides to subscribe to the option, the controller will send an automatic confirmation e-mail to check the double opt-in procedure as to whether the owner of the specified e-mail address decided in favor of this option. The option to subscribe to comments may be terminated at any time.

7. Deletion routines and blocking of personal data

The data controller shall process and store the personal data of the data subject only for the period necessary to achieve the purpose of storage, or as far as this is granted by the European legislator or other legislators in laws or regulations to which the controller is subject to.

If the storage purpose is not applicable, or if a storage period prescribed by the European legislator or another competent legislator expires, the personal data are routinely blocked or deleted in accordance with legal requirements.

8. Data subject rights

a) Right of confirmation

Each data subject shall have the right granted by the European legislator to obtain from the controller the confirmation as to whether or not personal data concerning him or her are being processed. If a data subject wishes to avail himself of this right of confirmation, he or she may, at any time, contact any employee of the controller.

b) Right of access to information

Each data subject shall have the right granted by the European legislator to obtain from the controller free information about his or her personal data stored at any time and a copy of this information. Furthermore, the European directives and regulations grant the data subject access to the following information:

- the purpose of processing
- the categories of personal data concerned
- the recipients or categories of recipients to whom the personal data have been or will be disclosed, in particular recipients in third countries or international organizations
- where possible, the envisaged period for which the personal data will be stored, or, if not possible, the criteria used to determine that period
- the existence of the right to request from the controller rectification or erasure of personal data, or restriction of processing of personal data concerning the data subject, or to object to such processing
- the existence of the right to lodge a complaint with a supervisory authority
- where personal data are not collected from the data subject, any available information as to their source
- the existence of automated decision-making, including profiling, referred to in Article 22(1) and (4) of the GDPR and, at least in those cases, meaningful information about the logic involved, as well as the significance and envisaged consequences of such processing for the data subject.

Furthermore, the data subject shall have a right to obtain information as to whether personal data are transferred to a third country or to an international organization. Where this is the case, the data subject shall have the right to be informed of the appropriate safeguards relating to the transfer.

If a data subject wishes to avail himself of this right of access, he or she may, at any time, contact any employee of the controller.

c) Right to rectification

Each data subject shall have the right granted by the European legislator to obtain from the controller without undue delay the rectification of inaccurate personal data concerning him or her. Taking into account the purposes of the processing, the data subject shall have the right to have incomplete personal data completed, including by means of providing a supplementary statement.

If a data subject wishes to exercise this right to rectification, he or she may, at any time, contact any employee of the controller.

c) Right to deletion (Right to be forgotten)

Each data subject shall have the right granted by the European legislator to obtain from the controller the erasure of personal data concerning him or her without undue delay, and the controller shall have the obligation to erase personal data without undue delay where one of the following grounds applies, as long as the processing is not necessary:

- The personal data are no longer necessary in relation to the purposes for which they were collected or otherwise processed.
- The data subject withdraws consent to which the processing is based according to point (a) of Article 6(1) of the GDPR, or point (a) of Article 9(2) of the GDPR, and where there is no other legal ground for the processing.
- The data subject objects to the processing pursuant to Article 21(1) of the GDPR and there are no overriding legitimate grounds for the processing, or the data subject objects to the processing pursuant to Article 21(2) of the GDPR.
- The personal data have been unlawfully processed.
- The personal data must be deleted for compliance with a legal obligation in Union or Member State law to which the controller is subject.
- The personal data have been collected in relation to the offer of information society services referred to in Article 8(1) of the GDPR.

If one of the aforementioned reasons applies, and a data subject wishes to request the erasure of personal data stored by DenkSinn GmbH, he or she may, at any time, contact any employee of the controller. An employee of DenkSinn GmbH shall promptly ensure that the erasure request is complied with immediately.

Where the controller has made personal data public and is obliged pursuant to Article 17(1) to erase the personal data, the controller, taking account of available technology and the cost of implementation, shall take reasonable steps, including technical measures, to inform other controllers processing the personal data that the data subject has requested erasure by such controllers of any links to, or copy or replication of, those personal data, as far as processing is not required. An employee of DenkSinn GmbH will arrange the necessary measures in individual cases.

d) Right to restriction of processing

Each data subject shall have the right granted by the European legislator to obtain from the controller restriction of processing where one of the following applies:

- The accuracy of the personal data is contested by the data subject, for a period enabling the controller to verify the accuracy of the personal data.
- The processing is unlawful and the data subject opposes the erasure of the personal data and requests instead the restriction of their use instead.
- The controller no longer needs the personal data for the purposes of the processing, but they are required by the data subject for the establishment, exercise or defense of legal claims.
- The data subject has objected to processing pursuant to Article 21(1) of the GDPR pending the verification whether the legitimate grounds of the controller override those of the data subject.

If one of the aforementioned conditions is met, and a data subject wishes to request the restriction of the processing of personal data stored by DenkSinn GmbH, he or she may at any time contact any employee of the controller. The employee of DenkSinn GmbH will arrange the restriction of the processing.

f) Right to data portability

Each data subject shall have the right granted by the European legislator, to receive the personal data concerning him or her, which was provided to a controller, in a structured, commonly used and machine-readable format. He or she shall have the right to transmit those data to another controller without hindrance from the controller to which the personal data have been provided, as long as the processing is based on consent pursuant to point (a) of Article 6(1) of the GDPR or point (a) of Article 9(2) of the GDPR, or on a contract pursuant to point (b) of Article 6(1) of the GDPR, and the processing is carried out by automated means, as long as the processing is not necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller.

Furthermore, in exercising his or her right to data portability pursuant to Article 20(1) of the GDPR, the data subject shall have the right to have personal data transmitted directly from one controller to another, where technically feasible and when doing so does not adversely affect the rights and freedoms of others.

In order to assert the right to data portability, the data subject may at any time contact any employee of DenkSinn GmbH.

g) Right of objection

Each data subject shall have the right granted by the European legislator to object, on grounds relating to his or her particular situation, at any time, to processing of personal data concerning him or her, which is based on point (e) or (f) of Article 6(1) of the GDPR. This also applies to profiling based on these provisions.

DenkSinn GmbH shall no longer process the personal data in the event of the objection, unless we can demonstrate compelling legitimate grounds for the processing which override the interests, rights and freedoms of the data subject, or for the establishment, exercise or defense of legal claims.

If DenkSinn GmbH processes personal data for direct marketing purposes, the data subject shall have the right to object at any time to processing of personal data concerning him or her for such marketing. This applies to profiling to the extent that it is related to such direct marketing. If the data subject objects to the DenkSinn GmbH to the processing for direct marketing purposes, DenkSinn GmbH will no longer process the personal data for these purposes.

In addition, the data subject has the right, on grounds relating to his or her particular situation, to object to processing of personal data concerning him or her by the DenkSinn GmbH for scientific or historical research purposes, or for statistical purposes pursuant to Article 89(1) of the GDPR, unless the processing is necessary for the performance of a task carried out for reasons of public interest.

In order to exercise the right to object, the data subject may contact any employee of DenkSinn GmbH. In addition, the data subject is free in the context of the use of information society services, and notwithstanding Directive 2002/58/EC, to use his or her right to object by automated means using technical specifications.

h) Automated individual decision making, including profiling

Each data subject shall have the right granted by the European legislator not to be subject to a decision based solely on automated processing, including profiling, which produces legal effects concerning him or her, or similarly significantly affects him or her, as long as the decision (1) is not necessary for entering into, or the performance of, a contract between the data subject and a data controller, or (2) is not authorized by Union or Member State law to which the controller is subject and which also lays down suitable measures to safeguard the data subject's rights and freedoms and legitimate interests, or (3) is not based on the data subject's explicit consent.

If the decision (1) is necessary for entering into, or the performance of, a contract between the data subject and a data controller, or (2) it is based on the data subject's explicit consent, the DenkSinn GmbH shall implement suitable measures to safeguard the data subject's rights and freedoms and legitimate interests, at least the right to obtain human intervention on the part of the controller, to express his or her point of view and contest the decision.

If the data subject wishes to exercise the rights concerning automated individual decision-making, he or she may, at any time, contact any employee of DenkSinn GmbH.

i) Right to withdraw data protection consent

Each data subject shall have the right granted by the European legislator to withdraw his or her consent to processing of his or her personal data at any time.

If the data subject wishes to exercise the right to withdraw the consent, he or she may, at any time, contact any employee of DenkSinn GmbH.

9. Data protection provisions regarding the application and use of Facebook

On this website, the controller has integrated components of the enterprise Facebook. Facebook is a social network.

A social network is a place for social meetings on the Internet, an online community, which usually allows users to communicate with each other and interact in a virtual space. A social network may serve as a platform for the exchange of opinions and experiences, or enable the Internet community to provide personal or business-related information. Facebook allows social network users to include the creation of private profiles, upload photos, and network through friend requests.

The operating company of Facebook is Facebook, Inc., 1 Hacker Way, Menlo Park, CA 94025, United States. If a person lives outside of the United States or Canada, the controller is the Facebook Ireland Ltd., 4 Grand Canal Square, Grand Canal Harbour, Dublin 2, Ireland.

With each call-up to one of the individual pages of this Internet website, which is operated by the controller and into which a Facebook component (Facebook plug-ins) was integrated, the web browser on the information technology system of the data subject is automatically prompted to download display of the corresponding Facebook component from Facebook through the Facebook component. An overview of all the Facebook Plug-ins may be accessed under <https://developers.facebook.com/docs/plugins/>. During the course of this technical procedure, Facebook is made aware of what specific sub-site of our website was visited by the data subject.

If the data subject is logged in at the same time on Facebook, Facebook detects with every call-up to our website by the data subject—and for the entire duration of their stay on our Internet site—which specific sub-site of our Internet page was visited by the data subject. This information is collected through the Facebook component and associated with the respective Facebook account of the data subject. If the data subject clicks on one of the Facebook buttons integrated into our website, e.g. the "Like" button, or if the data subject submits a comment, then Facebook matches this information with the personal Facebook user account of the data subject and stores the personal data.

Facebook always receives, through the Facebook component, information about a visit to our website by the data subject, whenever the data subject is logged in at the same time on Facebook during the time of the call-up to our website. This occurs regardless of whether the data subject clicks on the Facebook component or not. If such a transmission of information to Facebook is not desirable for the data subject, then he or she may prevent this by logging off from their Facebook account before a call-up to our website is made.

The data protection guideline published by Facebook, which is available at <https://facebook.com/about/privacy/>, provides information about the collection, processing and use of personal data by Facebook. In addition, it is explained there what setting options Facebook offers to protect the privacy of the data subject. In addition, different configuration options are made available to allow the elimination of data transmission to Facebook. These applications may be used by the data subject to eliminate a data transmission to Facebook.

10. Data protection provisions regarding the application and use of Google AdSense

On this website, the controller has integrated Google AdSense. Google AdSense is an online service which allows the placement of advertising on third-party sites. Google AdSense is based on an algorithm that selects advertisements displayed on third-party sites to match with the content of the respective third-party site. Google AdSense allows an interest-based targeting of the Internet user, which is implemented by means of generating individual user profiles.

The operating company of Google's AdSense component is Alphabet Inc., 1600 Amphitheatre Pkwy, Mountain View, CA 94043-1351, United States. If a person lives outside of the United States or Canada, the controller is the Google Ireland Limited, Gordon House, Barrow Street, Dublin, D04 E5W5, Ireland.

The purpose of Google's AdSense component is the integration of advertisements on our website. Google AdSense places a cookie on the information technology system of the data subject. The definition of cookies is explained above. With the setting of the cookie, Alphabet Inc. is enabled to analyze the use of our website. With each call-up to one of the individual pages of this Internet site, which is operated by the controller and into which a Google AdSense component is integrated, the Internet browser on the information technology system of the data subject will automatically submit data through the Google AdSense component for the purpose of online advertising and the settlement of commissions to Alphabet Inc. During the course of this technical procedure, the enterprise Alphabet Inc. gains knowledge of personal data, such as the IP address of the data subject, which serves Alphabet Inc., inter alia, to understand the origin of visitors and clicks and subsequently create commission settlements.

The data subject may, as stated above, prevent the setting of cookies through our website at any time by means of a corresponding adjustment of the web browser used and thus permanently deny the setting of cookies. Such an adjustment to the Internet browser used would also prevent Alphabet Inc. from setting a cookie on the information technology system of the data subject. Additionally, cookies already in use by Alphabet Inc. may be deleted at any time via a web browser or other software programs. Furthermore,

Google AdSense also uses so-called tracking pixels. A tracking pixel is a miniature graphic that is embedded in web pages to enable a log file recording and a log file analysis through which a statistical analysis may be performed. Based on the embedded tracking pixels, Alphabet Inc. is able to determine if and when a website was opened by a data subject, and which links were clicked on by the data subject. Tracking pixels serve, inter alia, to analyze the flow of visitors on a website.

Through Google AdSense, personal data and information—which also includes the IP address, and is necessary for the collection and accounting of the displayed advertisements—is transmitted to Alphabet Inc. in the United States of America. These personal data will be stored and processed in the United States of America. The Alphabet Inc. may disclose the collected personal data through this technical procedure to third parties. Google AdSense is further explained under the following link <https://www.google.com/intl/en/adsense/start/>.

11. Data protection provisions regarding the application and use of Google Analytics (including anonymization function)

On this website, the controller has integrated the component of Google Analytics (with the anonymizer function). Google Analytics is a web analytics service. Web analytics is the collection, gathering, and analysis of data about the behavior of visitors to websites. A web analysis service collects, inter alia, data about the website from which a person has come (the so-called referrer), which sub-pages were visited, or how often and for what duration a sub-page was viewed. Web analytics are mainly used for the optimization of a website and in order to carry out a cost-benefit analysis of Internet advertising.

The operator of the Google Analytics component is Google Inc., 1600 Amphitheatre Pkwy, Mountain View, CA 94043-1351, United States. If a person lives outside of the United States or Canada, the controller is the Google Ireland Limited, Gordon House, Barrow Street, Dublin, D04 E5W5, Ireland.

For the web analytics through Google Analytics the controller uses the application "_gat._anonymizelp". By means of this application the IP address of the Internet connection of the data subject is abridged by Google and anonymized when accessing our websites from a Member State of the European Union or another Contracting State to the Agreement on the European Economic Area.

The purpose of the Google Analytics component is to analyze the traffic on our website. Google uses the collected data and information, inter alia, to evaluate the use of our website and to provide online reports, which show the activities on our websites, and to provide other services concerning the use of our Internet site for us.

Google Analytics places a cookie on the information technology system of the data subject. The definition of cookies is explained above. With the setting of the cookie, Google is enabled to analyze the use of our website. With each call-up to one of the individual pages of this Internet site, which is operated by the controller and into which a Google Analytics component was integrated, the Internet browser on the information technology system of the data subject will automatically submit data through the Google Analytics component for the purpose of online advertising and the settlement of commissions to Google. During the course of this technical procedure, the enterprise Google gains knowledge of personal information, such as the IP address of the data subject, which serves Google, inter alia, to understand the origin of visitors and clicks, and subsequently create commission settlements.

The cookie is used to store personal information, such as the access time, the location from which the access was made, and the frequency of visits of our website by the data subject. With each visit to our Internet site, such personal data, including the IP address of the Internet access used by the data subject, will be transmitted to Google in the United States of America. These personal data are stored by Google in the United States of America. Google may pass these personal data collected through the technical procedure to third parties.

The data subject may, as stated above, prevent the setting of cookies through our website at any time by means of a corresponding adjustment of the web browser used and thus permanently deny the setting of cookies. Such an adjustment to the Internet browser used would also prevent Google Analytics from setting a cookie on the information technology system of the data subject.

In addition, cookies already in use by Google Analytics may be deleted at any time via a web browser or other software programs. In addition, the data subject has the possibility of objecting to a collection of data that are generated by Google Analytics, which is related to the use of this website, as well as the processing of this data by Google and the chance to preclude any such. For this purpose, the data subject must download a browser add-on under the link <https://tools.google.com/dlpage/gaoptout> and install it. This browser add-on tells Google Analytics through a JavaScript, that any data and information about the visits of Internet pages may not be transmitted to Google Analytics. The installation of the browser add-ons is considered an objection by Google.

If the information technology system of the data subject is later deleted, formatted, or newly installed, then the data subject must reinstall the browser add-ons to disable Google Analytics. If the browser add-on was uninstalled by the data subject or any other person who is attributable to their sphere of competence, or is disabled, it is possible to execute the reinstallation or reactivation of the browser add-ons.

Further information and the applicable data protection provisions of Google may be retrieved under <https://www.google.com/intl/en/policies/privacy/> and under <http://www.google.com/analytics/terms/us.html>. Google Analytics is further explained under the following Link <https://www.google.com/analytics/>.

12. Data protection provisions regarding the application and use of Google AdWords

On this website, the controller has integrated Google AdWords. Google AdWords is a service for Internet advertising that allows the advertiser to place ads in Google search engine results and the Google advertising network. Google AdWords allows an advertiser to pre-define specific keywords with the help of which an ad on Google's search results only then displayed, when the user utilizes the search engine to retrieve a keyword-relevant search result. In the Google Advertising Network, the ads are distributed on relevant web pages using an automatic algorithm, taking into account the previously defined keywords.

The operating company of Google AdWords is Google Inc., 1600 Amphitheatre Pkwy, Mountain View, CA 94043-1351, United States. If a person lives outside of the United States or Canada, the controller is the Google Ireland Limited, Gordon House, Barrow Street, Dublin, D04 E5W5, Ireland.

The purpose of Google AdWords is the promotion of our website by the inclusion of relevant advertising on the websites of third parties and in the search engine results of the search engine Google and an insertion of third-party advertising on our website.

If a data subject reaches our website via a Google ad, a conversion cookie is filed on the information technology system of the data subject through Google. The definition of cookies is explained above. A conversion cookie loses its validity after 30 days and is not used to identify the data subject. If the cookie has not expired, the conversion cookie is used to check whether certain sub-pages, e.g., the shopping cart from an online shop system, were called up on our website. Through the conversion cookie, both Google and the controller can understand whether a person who reached an AdWords ad on our website generated sales, that is, executed or canceled a sale of goods.

The data and information collected through the use of the conversion cookie is used by Google to create visit statistics for our website. These visit statistics are used in order to determine the total number of users who have been served through AdWords ads to ascertain the success or failure of each AdWords ad and to optimize our AdWords ads in the future. Neither our company nor other Google AdWords advertisers receive information from Google that could identify the data subject.

The conversion cookie stores personal information, e.g. the Internet pages visited by the data subject. Each time we visit our Internet pages, personal data, including the IP address of the Internet access used by the data subject, is transmitted to Google in the United States of America. These personal data are stored by Google in the United States of America. Google may pass these personal data collected through the technical procedure to third parties.

The data subject may, at any time, prevent the setting of cookies by our website, as stated above, by means of a corresponding setting of the Internet browser used and thus permanently deny the setting of cookies. Such a setting of the Internet browser used would also prevent Google from placing a conversion cookie on the information technology system of the data subject. In addition, a cookie set by Google AdWords may be deleted at any time via the Internet browser or other software programs.

The data subject has a possibility of objecting to the interest based advertisement of Google. Therefore, the data subject must access from each of the browsers in use the link www.google.de/settings/ads and set the desired settings.

Further information and the applicable data protection provisions of Google may be retrieved under <https://www.google.com/intl/en/policies/privacy/>.

13. Data protection provisions regarding the application and use of Instagram

On this website, the controller has integrated components of the service Instagram. Instagram is a service that may be qualified as an audiovisual platform, which allows users to share photos and videos, as well as disseminate such data in other social networks.

The operating company of the services offered by Instagram is Instagram LLC, 1 Hacker Way, Building 14 First Floor, Menlo Park, CA, United States. If a person lives outside of the United States or Canada, the controller is Facebook Ireland Ltd., 4 Grand Canal Square, Grand Canal Harbour, Dublin 2 Ireland.

With each call-up to one of the individual pages of this Internet site, which is operated by the controller and on which an Instagram component (Insta button) was integrated, the Internet browser on the information technology system of the data subject is automatically prompted to the download of a display of the corresponding Instagram component of Instagram. During the course of this technical procedure, Instagram becomes aware of what specific sub-page of our website was visited by the data subject.

If the data subject is logged in at the same time on Instagram, Instagram detects with every call-up to our website by the data subject—and for the entire duration of their stay on our Internet site—which specific sub-page of our Internet page was visited by the data subject. This information is collected through the Instagram component and is associated with the respective

Instagram account of the data subject. If the data subject clicks on one of the Instagram buttons integrated on our website, then Instagram matches this information with the personal Instagram user account of the data subject and stores the personal data.

Instagram receives information via the Instagram component that the data subject has visited our website provided that the data subject is logged in at Instagram at the time of the call to our website. This occurs regardless of whether the person clicks on the Instagram button or not. If such a transmission of information to Instagram is not desirable for the data subject, then he or she can prevent this by logging off from their Instagram account before a call-up to our website is made.

Further information and the applicable data protection provisions of Instagram may be retrieved under <https://help.instagram.com/155833707900388> and <https://www.instagram.com/about/legal/privacy/>.

14. Data protection provision regarding the application and use of Jetpack for WordPress

On this website, the controller has integrated Jetpack. Jetpack is a WordPress plug-in, which provides additional features to the operator of a website based on WordPress. Jetpack allows the Internet site operator, inter alia, an overview of the visitors of the site. By displaying related posts and publications, or the ability to share content on the page, it is also possible to increase visitor numbers. In addition, security features are integrated into Jetpack, so a Jetpack-using site is better protected against brute-force attacks. Jetpack also optimizes and accelerates the loading of images on the website.

The operating company of Jetpack Plug-Ins for WordPress is the Automattic Inc., 132 Hawthorne Street, San Francisco, CA 94107, United States. The operating enterprise uses the tracking technology created by Quantcast Inc., 201 Third Street, San Francisco, CA 94103, United States. If a person lives outside of the United States or Canada, the controller is Aut O'Mattic A8C Ireland Ltd., Business Centre, No.1 Lower Mayor Street, International Financial Services Centre, Dublin 1, Ireland.

Jetpack sets a cookie on the information technology system used by the data subject. The definition of cookies is explained above. With each call-up to one of the individual pages of this Internet site, which is operated by the controller and on which a Jetpack component was integrated, the Internet browser on the information technology system of the data subject is automatically prompted to submit data through the Jetpack component for analysis purposes to Automattic. During the course of this technical procedure Automattic receives data that is used to create an overview of website visits. The data obtained in this way serves the analysis of the behavior of the data subject, which has access to the Internet page of the controller and is analyzed with the aim to optimize the website. The data collected through the Jetpack component is not used to identify the data subject without a prior obtaining of a separate express consent of the data subject. The data comes also to the notice of Quantcast. Quantcast uses the data for the same purposes as Automattic.

The data subject can, as stated above, prevent the setting of cookies through our website at any time by means of a corresponding adjustment of the web browser used and thus permanently deny the setting of cookies. Such an adjustment to the Internet browser used would also prevent Automattic/Quantcast from setting a cookie on the information technology system of the data

subject. In addition, cookies already in use by Automattic/Quantcast may be deleted at any time via a web browser or other software programs.

In addition, the data subject has the possibility of objecting to a collection of data relating to a use of this Internet site that are generated by the Jetpack cookie as well as the processing of these data by Automattic/Quantcast and the chance to preclude any such. For this purpose, the data subject must press the 'opt-out' button under the link <https://www.quantcast.com/opt-out/> which sets an opt-out cookie. The opt-out cookie set with this purpose is placed on the information technology system used by the data subject. If the cookies are deleted on the system of the data subject, then the data subject must call up the link again and set a new opt-out cookie.

With the setting of the opt-out cookie, however, the possibility exists that the websites of the controller are not fully usable anymore by the data subject.

The applicable data protection provisions of Automattic may be accessed under <https://automattic.com/privacy/>. The applicable data protection provisions of Quantcast can be accessed under <https://www.quantcast.com/privacy/>.

15. Data protection provisions regarding the application and use of LinkedIn

The controller has integrated components of the LinkedIn Corporation on this website. LinkedIn is a web-based social network that enables users with existing business contacts to connect and to make new business contacts. Over 400 million registered people in more than 200 countries use LinkedIn. Thus, LinkedIn is currently the largest platform for business contacts and one of the most visited websites in the world.

The operating company of LinkedIn is LinkedIn Corporation, 2029 Stierlin Court Mountain View, CA 94043, United States. For privacy matters outside of the United States LinkedIn Ireland, Privacy Policy Issues, Wilton Plaza, Wilton Place, Dublin 2, Ireland, is responsible.

With each call-up to one of the individual pages of this Internet site, which is operated by the controller and on which a LinkedIn component (LinkedIn plug-in) was integrated, the Internet browser on the information technology system of the data subject is automatically prompted to the download of a display of the corresponding LinkedIn component of LinkedIn. Further information about the LinkedIn plug-in may be accessed under <https://developer.linkedin.com/plugins>. During the course of this technical procedure, LinkedIn gains knowledge of what specific sub-page of our website was visited by the data subject.

If the data subject is logged in at the same time on LinkedIn, LinkedIn detects with every call-up to our website by the data subject—and for the entire duration of their stay on our Internet site—which specific sub-page of our Internet page was visited by the data subject. This information is collected through the LinkedIn component and associated with the respective LinkedIn account of the data subject. If the data subject clicks on one of the LinkedIn buttons integrated on our website, then LinkedIn assigns this information to the personal LinkedIn user account of the data subject and stores the personal data.

LinkedIn receives information via the LinkedIn component that the data subject has visited our website, provided that the data subject is logged in at LinkedIn at the time of the call-up to our

website. This occurs regardless of whether the person clicks on the LinkedIn button or not. If such a transmission of information to LinkedIn is not desirable for the data subject, then he or she may prevent this by logging off from their LinkedIn account before a call-up to our website is made.

LinkedIn provides under <https://www.linkedin.com/psettings/guest-controls> the possibility to unsubscribe from e-mail messages, SMS messages and targeted ads, as well as the ability to manage ad settings. LinkedIn also uses affiliates such as Eire, Google Analytics, BlueKai, DoubleClick, Nielsen, Comscore, Eloqua, and Lotame. The setting of such cookies may be denied under <https://www.linkedin.com/legal/cookie-policy>.

The applicable privacy policy for LinkedIn is available under <https://www.linkedin.com/legal/privacy-policy>. The LinkedIn Cookie Policy is available under <https://www.linkedin.com/legal/cookie-policy>.

16. Data protection provisions regarding the application and use of Xing

On this website, the controller has integrated components of XING. XING is an Internet-based social network that enables users to connect with existing business contacts and to create new business contacts. The individual users can create a personal profile of themselves at XING. Companies may, e.g. create company profiles or publish jobs on XING.

The operating company of XING is XING SE, Dammtorstraße 30, 20354 Hamburg, Germany.

With each call-up to one of the individual pages of this Internet site, which is operated by the controller and on which a XING component (XING plug-in) was integrated, the Internet browser on the information technology system of the data subject is automatically prompted to download a display of the corresponding XING component of XING. Further information about the XING plug-in may be accessed under <https://dev.xing.com/plugins>. During the course of this technical procedure, XING gains knowledge of what specific sub-page of our website was visited by the data subject.

If the data subject is logged in at the same time on XING, XING detects with every call-up to our website by the data subject—and for the entire duration of their stay on our Internet site—which specific sub-page of our Internet page was visited by the data subject. This information is collected through the XING component and associated with the respective XING account of the data subject. If the data subject clicks on the XING button integrated on our Internet site, e.g. the "Share"-button, then XING assigns this information to the personal XING user account of the data subject and stores the personal data.

XING receives information via the XING component that the data subject has visited our website, provided that the data subject is logged in at XING at the time of the call to our website. This occurs regardless of whether the person clicks on the XING component or not. If such a transmission of information to XING is not desirable for the data subject, then he or she can prevent this by logging off from their XING account before a call-up to our website is made.

The data protection provisions published by XING, which is available under <https://www.xing.com/privacy>, provide information on the collection, processing and use of

personal data by XING. In addition, XING has published privacy notices for the XING share button under https://www.xing.com/app/share?op=data_protection.

17. Data protection provisions regarding the application and use of YouTube

On this website, the controller has integrated components of YouTube. YouTube is an Internet video portal that enables video publishers to set video clips and other users free of charge, which also provides free viewing, review and commenting on them. YouTube allows you to publish all kinds of videos, so you can access both full movies and TV broadcasts, as well as music videos, trailers, and videos made by users via the Internet portal.

The operating company of YouTube is YouTube, LLC, 901 Cherry Ave., San Bruno, CA 94066, United States. The YouTube, LLC is a subsidiary of Google Inc., 1600 Amphitheatre Pkwy, Mountain View, CA 94043-1351, United States. If a person lives outside of the United States or Canada, the controller is Google Ireland Limited, Gordon House, Barrow Street, Dublin, D04 E5W5, Ireland.

With each call-up to one of the individual pages of this Internet site, which is operated by the controller and on which a YouTube component (YouTube video) was integrated, the Internet browser on the information technology system of the data subject is automatically prompted to download a display of the corresponding YouTube component. Further information about YouTube may be obtained under <https://www.youtube.com/yt/about/en/>. During the course of this technical procedure, YouTube and Google gain knowledge of what specific sub-page of our website was visited by the data subject.

If the data subject is logged in on YouTube, YouTube recognizes with each call-up to a sub-page that contains a YouTube video, which specific sub-page of our Internet site was visited by the data subject. This information is collected by YouTube and Google and assigned to the respective YouTube account of the data subject.

YouTube and Google will receive information through the YouTube component that the data subject has visited our website, if the data subject at the time of the call to our website is logged in on YouTube; this occurs regardless of whether the person clicks on a YouTube video or not. If such a transmission of this information to YouTube and Google is not desirable for the data subject, the delivery may be prevented if the data subject logs off from their own YouTube account before a call-up to our website is made.

YouTube's data protection provisions, available at <https://www.google.com/intl/en/policies/privacy/>, provide information about the collection, processing and use of personal data by YouTube and Google.

18. Payment method: Privacy provisions for the application and use of PayPal as payment method

On this website, the controller has integrated components of PayPal. PayPal is an online payment service provider. Payments are processed through so-called PayPal accounts, which are virtual private or business accounts. In addition, PayPal offers the possibility to process virtual

payments via credit cards if a user does not have a PayPal account. A PayPal account is managed via an email address, which is why there is no classic account number. PayPal makes it possible to trigger online payments to third parties or to receive payments. PayPal also assumes trustee functions and offers buyer protection services.

The European operating company of PayPal is PayPal (Europe) S.à.r.l. et Cie, S.C.A., 22-24 Boulevard Royal L-2449, Luxembourg.

If the data subject selects "PayPal" as a payment option in our online shop during the ordering process, data of the person concerned is automatically transmitted to PayPal. By selecting this payment option, the person concerned agrees to the transmission of personal data required for the payment process.

The personal data transmitted to PayPal is usually first name, surname, address, email address, IP address, telephone number, mobile phone number or other data necessary for the payment processing. For the processing of the purchase contract, such personal data are also necessary in connection with the respective order.

The transmission of the data is intended for payment processing and fraud prevention. The person responsible for processing will transmit personal data to PayPal in particular if there is a legitimate interest in the transmission. The personal data exchanged between PayPal and the data controller may be transmitted by PayPal to credit reporting agencies. The purpose of this transmission is to check identity and creditworthiness.

PayPal may share personal data with affiliates and service providers or subcontractors to the extent necessary to perform its contractual obligations or where the data is to be processed under contract.

The data subject has the possibility to revoke his or her consent to PayPal's handling of personal data at any time. Revocation does not affect personal data that must be processed, used or transmitted for the (contractual) handling of payments.

PayPal's applicable data protection regulations can be found at <https://www.paypal.com/de/webapps/mpp/ua/privacy-full>.

19. Payment method: Privacy provisions for the application and use of instant bank transfer (Sofortüberweisung) as payment method

On this website, the controller has integrated components for instant bank transfer (Sofortüberweisung). DIRECTebanking is a payment service that enables cashless payment for products and services on the Internet. Sofortüberweisung represents a technical procedure by which the online merchant immediately receives a payment confirmation. This enables a merchant to deliver goods, services or downloads to the customer immediately after ordering.

The operating company of Sofortüberweisung is Klarna Bank AB, Sveavägen 46, 111 34 Stockholm, Sweden.

If the data subject selects "Sofortüberweisung" as payment option during the ordering process in our online shop, data of the person concerned will be automatically transferred to

Sofortüberweisung. By selecting this payment option, the data subject consents to the transfer of personal data required for payment processing.

In the purchase transaction via Sofortüberweisung, the buyer transmits the PIN and the TAN to Sofort GmbH. Sofortüberweisung then executes a transfer to the online merchant after technical verification of the account balance and retrieval of further data to check the account coverage. The execution of the financial transaction is then automatically communicated to the online merchant.

The personal data exchanged with Sofortüberweisung are first name, surname, address, e-mail address, IP address, telephone number, mobile phone number or other data necessary for the processing of the payment. The purpose of the transfer of data is to process payments and prevent fraud. The data controller will transmit other personal data by immediate transfer even if there is a legitimate interest in the transmission. The personal data exchanged between DIRECTebanking and the controller may be transmitted by DIRECTebanking to credit reference agencies. The purpose of this transfer is to check identity and creditworthiness.

Where appropriate, DIRECTebanking may transfer the personal data to affiliated companies and service providers or subcontractors to the extent that this is necessary to fulfil contractual obligations or if the data are to be processed under contract.

The data subject has the possibility to revoke his or her consent to the handling of personal data at any time in relation to Sofortüberweisung. Revocation does not affect personal data that must be processed, used or transmitted for (contractual) payment processing.

The applicable data protection regulations of Sofortüberweisung can be found at <https://www.klarna.com/sofort/datenschutz/>.

20. Legal framework for processing

Art. 6(1) lit. a GDPR serves as the legal basis for processing operations for which we obtain consent for a specific processing purpose. If the processing of personal data is necessary for the performance of a contract to which the data subject is party, as is the case, for example, when processing operations are necessary for the supply of goods or to provide any other service, the processing is based on Article 6(1) lit. b GDPR. The same applies to such processing operations which are necessary for carrying out pre-contractual measures, for example in the case of inquiries concerning our products or services. Is our company subject to a legal obligation by which processing of personal data is required, such as for the fulfillment of tax obligations, the processing is based on Art. 6(1) lit. c GDPR. In rare cases, the processing of personal data may be necessary to protect the vital interests of the data subject or of another natural person. This would be the case, for example, if a visitor were injured in our company and his name, age, health insurance data or other vital information would have to be passed on to a doctor, hospital or other third party. Then the processing would be based on Art. 6(1) lit. d GDPR. Finally, processing operations could be based on Article 6(1) lit. f GDPR. This legal basis is used for processing operations which are not covered by any of the abovementioned legal grounds, if processing is necessary for the purposes of the legitimate interests pursued by our company or by a third party, except where such interests are overridden by the interests or fundamental rights and freedoms of the data subject which require protection of personal data. Such processing operations are particularly permissible because they have been specifically

mentioned by the European legislator. He considered that a legitimate interest could be assumed if the data subject is a client of the controller (Recital 47 Sentence 2 GDPR).

21. Legitimate interests pursued by the controller or by a third party

Where the processing of personal data is based on Article 6(1) lit. f GDPR our legitimate interest is to carry out our business in favor of the well-being of all our employees and the shareholders.

22. Storage period for personal data

The criteria used to determine the period of storage of personal data is the respective statutory retention period. After expiration of that period, the corresponding data is routinely deleted, as long as it is no longer necessary for the fulfillment of the contract or the initiation of a contract.

23. Provision of personal data as statutory or contractual requirement; Requirement necessary to enter into a contract; Obligation of the data subject to provide the personal data; possible consequences of failure to provide such data

We apprise all concerned or interested that the provision of personal data is partly required by law (e.g. tax regulations) or can also result from contractual provisions (e.g. information on the contractual partner). Sometimes it may be necessary to conclude a contract that the data subject provides us with personal data, which must subsequently be processed by us. The data subject is, for example, obliged to provide us with personal data when our company signs a contract with him or her. The non-provision of the personal data would have the consequence that the contract with the data subject could not be concluded. Before personal data is provided by the data subject, the data subject must contact any employee. The employee clarifies to the data subject whether the provision of the personal data is required by law or contract or is necessary for the conclusion of the contract, whether there is an obligation to provide the personal data and the consequences of non-provision of the personal data.

24. Existence of automated decision making

As a responsible company, we do not use automatic decision-making or profiling.
